21 December 1962

MEMORANDUM FOR:

25X1A

THROUGH : DD/I

Now that the NSAM 205 report has been completed, I should like to pass on to you my great appreciation for your truly outstanding work on this project. You were the real backbone of the entire exercise and deserve a very major share of the credit for its successful completion.

The vast amount of material which was pulled together, sifted and correlated in the preparation of the report would have taxed any lesser individual. To have accomplished so much so well in such a short time and often under conditions of personal hardship is to your everlasting credit.

I should like to commend you on the part of the entire 205 group and to express my own personal appreciation for everything you did.

ILLEGIB

HERBERT SCOVILLE, JR.
Deputy Director
(Research)
